

Email to parents

13 November 20

Dear Parents/Carers,

From Monday 16th November we are going to trial having the school transport park and drop off students on the Big Space in the playground. This is the same way transport collect students at the end of the day. We are asking parents/carers to continue to park outside the main gate as you have been since September in the usual way.

Now that students are used to the procedure of getting their temperature taken and hands sanitised on arrival, we feel that we can move to this next step in order to reduce the number of students and adults at the main gate.

We have asked transport to not allow students off the taxi until a member of staff have invited them to do so. If your child gets on transport, then please prepare them for this change and ask them to wait patiently until they are asked to leave the taxi and to ensure their temperature is taken and hands sanitised in the usual way.

Thank you to all parents/carers that have ensured that their children are wearing face masks, we have been so impressed with the way are following the Covid Safety procedures. Please continue to check that they have their masks when leaving home.

Kind regards

Michelle Stephenson: Deputy Headteacher
