## Food Technology Lessons

Dear Parents/Carers,

To enable the Food Technology Department to continue to provide a wide variety of opportunities for students to make and take home food they prepare, we continue to ask for a contribution towards the cost of ingredients.

Students in years 9, 10 and 11 will be having a double Food Technology lesson each week over the course of this school year. Year 8 students will have a single lesson weekly.

We will provide all the ingredients needed for these lessons but we ask you to help us pay for these by making the following contributions:

Year 8 students	£30	(£10 per term)
Years 9, 10 and 11 students	£60	(£20 per term)

Please make your payment for this term on Scopay as we are now a cashless site, alternatively you can make a payment for the whole year if you prefer.

Yours sincerely,

Sue Eaton  
**Food Technology Teacher**
