**Year 9 Remote Learning Survey February 2021**

Dear Parent/Carer,

As announced by Boris Johnson on Wednesday last week, remote learning is going to continue until *at least* Monday 8th March. There is still no guarantee that schools will reopen on this date, but this is the government's aim.

We have just completed week 4 of remote learning and we thought it would be a good time to get some feedback from you on how it is all going. Since the last time we sent out a survey, we listened to your feedback and made so many changes to your child's home learning experience.

The new remote learning offer includes:

- Daily live tutor
- Daily live sessions
- Face to face reading/well-being sessions
- ELSA resources for those who need this support
- Speech and Language teletherapy (face to face)
- Assembly
- Increase in welfare calls

Click on the link below to complete the remote learning survey. It is important to us that we know what we are doing well and things that we could improve. Our staff have been working tirelessly to ensure that *every* child has the best standard of education possible and we hope that you have seen our efforts. We know how hard parents and carers are working also to support your children with their learning and we want to make sure that we are doing all we can to support you.

<https://forms.gle/N6ecLBo9W8f3UD5p9>

Please complete this survey by **Thurs 4th February**.

Kind regards

**Michelle Stephenson: Deputy Headteacher**
